P2+P3 (MEDIUM/LOW)

P0 · Critical · 2 reports

Security holes and clinical blockers. Must fix before professional use. These are regulatory blockers — a platform with these gaps cannot be deployed in a regulated pharmacy setting.

#1

D

Routing Architecture

No URL routing — 22 routes return 404. setState navigation. Breaks deep-links, SEO, sharing, back/forward.

DeepDive

#8

D

Authentication Model

Single shared code (4815162342), no per-user accounts, no MFA, no audit trail. P0 regulatory blocker.

DeepDive

P1 · High Priority · 13 reports

Significant UX gaps, data loss, or WCAG accessibility failures. Fix in the next sprint. These features are broken enough to cause real user frustration or compliance gaps.

#2

C+

State Management

setState not router.push. Per-tab sync gaps. Drug list not persisted. No Copilot history.

DeepDive

#4

B+

SEO & Metadata

JSON-LD excellent (MedicalWebPage). Sitemap has 1 URL → 10,000+ pages invisible to Google. No og:image.

DeepDive

#6

C+

Internationalization (i18n)

French-first correct. Darija is differentiator. Arabic renders WITHOUT dir=rtl (unreadable!). No language switcher.

DeepDive

#9

B-

Session Management

Lock works (corrects #8). No idle timeout (shared-computer risk). No cross-tab sync. No lock-vs-logout.

DeepDive

#22

C+

Interactions Checker

5 dangerous example pairs. 3 bugs: examples don't populate, drug list not persisted, Matrice doesn't render.

DeepDive

#36

B

AI Copilot Core

Trilingual Darija, 3-mode, structured clinical output. 3 bugs (version, prompts, history) + 11s latency.

DeepDive

#38

C+

Voice Dictation

4 bugs: Firefox dead button, no permission pre-prompt, stop aria-label, hard-coded lang=fr-FR. Arabic broken.

DeepDive

#39

B-

Suggested Prompts

4 thoughtful trilingual prompts. Dead-click bug — clicking does nothing. 1h fix lifts to B+.

DeepDive

#40	D+	Conversation History 0/5 patterns implemented. Copilot is stateless — refresh wipes conversation. No persistence, no thread list.	DeepDive
#54	B	Typography 8-step scale with calc() line-heights. But 0 webfonts loaded — entire UI on OS fallback stack. 30-min fix.	DeepDive
#61	C+	Accessibility Live Regions 1 live region (login role=alert) + 4 missing (Copilot, toast, bell, search). WCAG 4.1.3 fails. 2h fix.	DeepDive
#62	C	Icon-Only Button Labels 6 icon-only buttons, 4 missing/generic labels. WCAG 4.1.2 fails. 25-min fix lifts to A.	DeepDive
#67	C+	Reduced Motion Support 13 keyframes, 103 transitions, 0 prefers-reduced-motion queries. 5-min CSS fix. Smallest-effort highest-impact.	DeepDive

P2 · Medium Priority · 13 reports

Polish items and workflow friction. Fix in the next quarter. The features work but have bugs or missing patterns that degrade the experience.

#7	B+	Login Flow AAA WCAG 3.3.1 errors. Password-manager friendly. 4 gaps: rate limit, enterkeyhint, noindex, redirect.	DeepDive
#11	B+	Command Palette (Cmd-K) 23 commands, dual-source search, emergency-first. 2 bugs: decorative hotkeys + selection desync (safety risk).	DeepDive
#23	B	Interactions Matrix Cross-table view of pairwise interactions. Color-coded severity. Rendering bug in Matrice tab.	DeepDive
#35	B	Pharmacies de Garde 52 pharmacies, 17/58 wilayas. 5 gaps: search predicate, coverage, hours, GPS, freshness. 3.5h lifts to A-.	DeepDive
#37	B	Copilot Mode System 3 modes (pro/patient/enfant). Mode enfant excellent. Mode patient = Mode pro (bug). Not persisted to Zustand.	DeepDive
#41	C+	Streaming Responses 3-8s batch render, no streaming. Vercel AI SDK adoption (1 day) lifts to A-. Progressive rendering + early cancel.	DeepDive
#43	B	Notifications Center Bell + dropdown, 3 notification types. 3 gaps: no push, no filter, no bulk action. 3h lifts to B+.	DeepDive

#44	B+	Recently Viewed Medications 10-item cap, IDs-only schema, Zustand persistence. 3 gaps + privacy gap (no expiration). 3.5h lifts to A-.	DeepDive
#49	B+	Sharing System Share dialog with WhatsApp/Telegram/Email/copy. Depends on #1 routing for shareable URLs.	DeepDive
#50	B+	Shortage Reporting 9 community reports, 58 wilayas. Submit returns 500 error. Unique public-health feature. Fix API endpoint.	DeepDive
#60	A-	Motion & Transitions 13 keyframes, 3-tier hierarchy, 103/103 elements with transitions. 0 prefers-reduced-motion queries (gap).	DeepDive
#66	B+	Color Blindness Support Color+text+icon on every status indicator. 7-state system. 20 Nuancier palettes need verification. 4h fix.	DeepDive
#68	B+	200% Zoom & Reflow rem unit system, 200% passes, 400% largely passes. Table reflow gap. 2h lifts to A-.	DeepDive
